

ALL BAHAMAS ALL ITEMS ANNUAL AVERAGE & PERCENTAGE CHANGE OF CPI 2006-2016

The Consumer Price Index (CPI) is published as an index number that shows the changes in the price of a defined market basket of goods and services over time from a base period which is defined as 100.0. Currently, the reference base for the CPI indexes is November 2014=100. The reference base years refer to the period in which the index is set to 100.0. Below represents the All items Annual averages CPI index points along with the Annual average percentage change for each given year. They represent an annual average index and percentage change for a given year, not a particular month.
